

12th DynaMesh® INTERNATIONAL HERNIA MASTERCLASS ONLINE / Düsseldorf 28 -29 Nov 2025

Dear colleagues,

It is my great honour and pleasure to invite you to Düsseldorf for the 12th DynaMesh® International Hernia Masterclass in 2025.

The field of hernia surgery is constantly evolving, and innovative techniques and a deeper understanding of the underlying pathophysiology are opening up new treatment options. The aim is to improve the quality of life of our patients in the long term.

This year, we are once again offering you the opportunity to watch live operations performed by world-renowned surgeons in three operating theatres and to exchange ideas with them. Our focus is on providing you with practical insights into modern surgical techniques and valuable tips directly from the experts. In addition to the live demonstrations, you can look forward to lectures by international specialists on complex hernias.

We hope that the DynaMesh® International Masterclass will once again be a platform for knowledge exchange, establishing new contacts and maintaining existing networks in 2025. The participation of colleagues from different countries allows us to share experiences from different medical cultures and learn from each other.

My team and I look forward to welcoming you in person or virtually in Düsseldorf and to experiencing an inspiring and informative event together.

With warm regards,

Dr. med. Konstantinos Zarras

Head Physician

Clinic for Visceral, Minimally Invasive and Oncological Surgery

Marien Hospital Düsseldorf
